LSBA Statement of Diversity Principles

The LSBA recognizes that diversity is an inclusive concept that encompasses race, color, ethnicity, gender, sexual orientation, age, religion, national origin, disability and other aspects of diversity.

We believe that with greater diversity, we can be more creative, effective and bring more varied perspectives, experiences, backgrounds, talents and interests to the practice of law and the administration of justice. We further believe that a diverse group of talented legal professionals is critically important to the success of every law firm, corporate or government legal department, law school and public service organization and every other organization that includes attorneys.

We recognize that to fully and equitably pursue justice, our profession must reflect the full spectrum of our communities. To this end, we pledge to make our best efforts to increase the diversity in our hiring, retention and promotion of attorneys and the elevation of attorneys to leadership positions within our respective organizations. We believe that all members of the bar should participate equally and fully in our profession. Ultimately, we believe that diversity in the legal profession is good for the profession, good for business, good for our communities and critical for enhancing the public's confidence in the judicial system.

We recognize that achieving diversity within our organizations and creating inclusive environments are evolutionary processes that require a continued effort and commitment on our part. We pledge to promote and participate in appropriate diversity awareness training programs. We further agree to participate in programs to measure our progress in the pursuit of these stated principles.
