Information for Lawyers

DID YOU KNOW?

More than 1.3 million people in Louisiana cannot afford legal representation at the going rate

These are families and individuals who typically fall between 200 and 400% of the Federal Poverty Level. They make too much to qualify for free legal aid but cannot afford market rate legal services. Where do these individuals turn for affordable legal options in Louisiana?

The LSBA

The Directory connects people who are income eligible with attorneys offering affordable legal services. Louisiana licensed attorneys in good standing who offer affordable legal options by way of sliding scale, flat fees, or limited scope representation are encouraged to join the Directory.

In addition to receiving calls from prospective clients, attorneys on the Directory receive access to:

- Business Development Tools
