

FOR IMMEDIATE RELEASE

19th Judicial District Court Addresses Cyber Incident - No Compromise of System Information Detected

Date: August 22, 2024

[Baton Rouge, Louisiana] — The 19th Judicial District Court is addressing a recent cyber incident that occurred on August 8, 2024. The court promptly notified state law enforcement, who are currently investigating the situation. At this time, there is no evidence suggesting any compromise of sensitive information.

The court's essential functions and operations have not been affected by the incident. All ongoing cases and judicial processes continue to proceed as scheduled.

State and local government agencies are providing their full support as the court transitions to a more secure and efficient network infrastructure. This planned upgrade to the court's network was already in progress prior to the incident and is intended to enhance the overall security and performance of court operations.

The investigation into the cyber incident is ongoing, and the court is committed to maintaining transparency while ensuring the integrity and confidentiality of its systems.
