Strangulation has been identified as one of the most lethal forms of domestic violence and sexual assault: Unconsciousness may occur within seconds and death within minutes. When domestic violence perpetrators choke (strangle) their victims, especially to the point of unconsciousness, it is not only a felony but it may be an attempted homicide. Strangulation is an ultimate form of *power and control* that can have a devastating psychological effect on victims. The inability to breathe is one of the most terrifying events a person can endure.
